- Access to information (M2)
- Fragmented national laws & regulations
- Empirical evidence on its operationalisation
- Affected 6M people
- Survey
- In-depth interviews
- Consultations with key informants
- Document reviews

What is the state of play?

Mainstreaming challenges and opportunities

- Research outputs
- Quantitative indicators
- Qualitative & quantitative evaluation of mainstreaming efforts
- Methodology for local mainstreaming assessment
- Empirical evidence of local mainstreaming challenges

Institutional issues

- Fragmented national laws & regulations
- Multiple policy requirements
- Absence of detailed guidelines for mainstreaming efforts
- Lack of institutional support mechanisms for CCA

Mainstreaming is still in infancy.

Knowledge gaps

- Scarce empirical evidence on its operationalisation
- Limited analysis of local mainstreaming challenges
- Lack of assessment of mainstreaming efforts
- Multiple policy requirements
- Death > 6,000

Assessing mainstreaming indicators in Albay, Philippines: Barriers or opportunities?

- Institutional issues (M14) – primary barrier
- Availability of information (M1)
- Access to information (M2)
- Leadership (M8) – opportunity in Albay

Climate change champion (Albay Governor) positively influenced community behaviour & collective action towards CCA
