CANBERRA URBAN AND REGIONAL FUTURES

Seminar Series 2016

Adapting to climate change: connecting the dots

Expert panel discussion

5.30pm-7.00pm, Monday, 16 May 2016

Ann Harding Conference Centre, Building 24, University Drive South, University of Canberra

The competing multiple challenges facing knowledge uptake in the context of climate adaptation are well known. Climate change adaptation research has burgeoned in recent times, and yet the overlay into policy at all levels of government in Australia has seen mixed results to date. The question remains, why is this so? Join us as we explore challenges in climate change adaptation knowledge within governments.

This panel takes up the challenge of climate change adaptation and knowledge transfer for government at all levels.

Peter Bascomb
Palerang Council, NSW

Antonio Mozqueira
ACT Government

Kate Rodgers
Australian Government
