Climate Adaptation Futures

Session 09 - National and Sub-national case studies of adaptation

Source: Schönthaler et al. 2010
example - climate change adaptation indicator

» 14 Action Fields

» Action Field: Water Regime, Water Management, Coastal & Marine Protection

» Indication Field: Sea Level and Sea currents

» Sub-themes: Sea Level Rise; Changes in Sea Current Conditions and Tide Dynamics

» Indicators: Sel Level Rise; Changes in the Frequency of Storm Tides

Source: Schönhaler et al. 2010
Conclusions

» challenges

1. concretion of adaptation goals
2. appropriate governance structure - establish
3. Definition of response indicators - progress of adaptation policy
Many thanks!

Adaptation policy in Germany and multi-level governance
